EXPERIENCE

Sep, 2021 - Present **PERICIUS TECHNOLOGIES**

India

Senior Frontend Engineer

- Engineered highly interactive single-page applications using HTML, CSS, JavaScript, and React.js, contributing to a 10% increase in client retention..
- Spearheaded the software development lifecycle, achieving project delivery 20% faster than standard timelines.
- Played a pivotal role in evaluating and integrating front-end frameworks, streamlining the development process and enhancing workflow efficiency.
- Led an initiative for code modularity and reuse, reducing development costs by 15%..
- Mentored new team members, imparting best practices in web development and boosting team performance.
- Conducted technical interviews to assess and hire new developers, ensuring the addition of skilled team members and maintaining high standards of technical expertise within the team.

Oct, 2020 - Aug, 2021 **REDPOSITIVE SERVICE OPC**

India

Frontend Engineer

- Enhanced web application performance by incorporating advanced JavaScript and TypeScript techniques, improving load speeds by 20%.
- Developed responsive and accessible designs, ensuring cross-device and cross-browser compatibility, leading to a 25% boost in user engagement.
- Contributed to framework selection and implementation, significantly optimizing project workflows..
- Provided in-depth technical support to the Design team, ensuring seamless integration of design assets and development processes, resulting in a 20% increase in development efficiency.
- Implemented lazy loading for images and components, significantly improving website performance and user experience.
- Constructed over 50 reusable components and integrated third-party libraries like Material-UI and Ant Design, reducing development time by 35%.

May, 2019 - Sep, 2020 **ENYE**

Berlin, DE

Frontend Engineer

- Worked closely with back-end developers to integrate APIs seamlessly, ensuring data consistency and improving application reliability.
- Created a reusable component library, which streamlined the development process and reduced the time required for future projects by 20%.
- Ensured mobile-first design principles and responsive layouts, leading to a 40% increase in mobile user retention and satisfaction.
- Worked within an Agile framework, participating in daily stand-ups, sprint planning, and retrospectives, improving team productivity by 20% and project delivery times by 15%.
- Participated in over 50 code reviews, maintaining code quality and sharing knowledge among the team, which resulted in a 30% reduction in post-deployment issues.

EDUCATION

2015-2021 **FEDERAL UNIVERSITY OF TECHNOLOGY OWERRI**

Imo, NG

Bachelor of Technology, Major in Computer Science

ADDITIONAL INFORMATION

- Technical Skills: Nodejs, Redis, MongoDB, Javascript (ES6, ES7), Typescript, Reactjs, React Native, CI/CD Pipelines, Next, Redux, Typescript, Vite/Webpack, TailwindCSS
- Languages: English (native),
- Soft Skills: Communication, Code Reviews, Collaboration, Continuous learning and Empathy.
